

Audio Video Connectors, 3.5mm Stereo Jacks ST

Seamless Hubbell System Integration.

Universal Keystone Design fits into all Hubbell Products.

Standard 3.5mm Stereo Jack.

Use with Mono and Stereo Audio Applications.

Screw terminal connection.

High-performance, Nickel-plated, 3.5mm stereo jack.

High-impact, flame-retardant polymer.

SPECIFICATIONS

- ◆ **Connector:**
 - Body: Brass
 - Plating: Nickel 100μ"
- ◆ **Material:**
 - Housing: Flame Retardant Polymer (UL 94V-0)

CABLE TERMINATION

Cable Type: 22-30 AWG 2 conductor, with shield (served bare copper shield preferred).

CONNECTOR TERM

3.5mm Stereo Connections - TS and TRS (Phono style jacks and plugs) connections are available in three standard sizes 1/4", 3.5 mm or miniature and 2.5 mm or subminiature. The 3.5mm is also referred to as 1/8" stereo jack. All three sizes are available in common two-conductor (mono) and three-conductor (stereo or tip ring sleeve) versions. A four conductor version of the 3.5 mm plug is used for certain output applications for compact camcorders, providing stereo audio and video signal. This interface is also seen on some laptop computers.

INSTALLATION TIPS

Soldering tips: Cleanliness - Temperature - Time - Solder Coverage - These key factors affect the quality of the joint. A little effort spent in soldering a perfect joint will eliminate a considerable amount of time in troubleshooting a defective joint in the future.

Important: Always allow for clearance behind connection location to ensure for proper bend radius.

Hubbell's 3.5mm Stereo Jack is the perfect solution for distributing audio signals to-and-from components. Today's computers and portable electronic devices have standardized on the 3.5mm stereo jack for audio and microphone inputs and outputs. Having this style connection in the work area has become a requirement.

Requiring wall side screw terminal installation, these connectors install with a "snap" and provide a quick plug in style termination. Hubbell's 3.5mm Stereo Jacks are available in 7 standard Hubbell colors and flush mount into all **iSTATION™** plates, modules, frames, surface housings, and UDX multimedia panels.

Create a customized multimedia work station by adding a 3.5mm Stereo Jack along with Hubbell's other AV modules or **XCELERATOR™** jacks.

APPLICATIONS SUPPORTED

- ▲ Laptop and desktop computers.
- ▲ Projectors and flat panel monitors.
- ▲ CD/DVD/DVR/MP3/media players and game machines.
- ▲ PDAs and mobile devices.

DEFINITION: Tip/Ring/Sleeve

1. Sleeve: usually ground.
2. Ring: Right channel for stereo signals, negative phase for balanced mono signals.
3. Tip: Left channel for stereo signals, positive phase for balanced mono signals, signal line for unbalanced mono signals.
4. Insulating rings.

	Unbalanced	Balanced	Stereo
Tip	Signal	Positive "Hot"	Left Channel
Ring	Not available	Negative "Cold"	Right Channel
Sleeve	Ground Return	Ground	Ground

AV Connectors, 3.5mm Stereo Jacks, Screw Term

Qty.	Catalog No.
1-pack	SF35STXX
Bulk 10-pack	35STXX
XX = Housing Colors	
"AL" = Almond; "BK" = Black; "EI" = Electric Ivory; "GY" = Gray;	
"LA" = Light Almond; "OW" = Office White; "W" = White.
