

Product Information Sheet

VERTICAL RACK BUSBAR KITS

Vertical Rack Busbar Kits isolate the Busbar from the rack to help control current paths from passing through one piece of equipment to another.

- Kits include:
 - 1 #2 AWG two-hole ground compression lug with 3/8" holes on 1" centers
 - 3 white Delrin® insulator blocks
 - 3 self-tapping screws
 - 3 #12-24 mounting screws
 - 2 stainless steel lock washers, 5/16"
 - 2 nuts
- Other configurations are available on request
- UL Listed
