

Open-Frame Rack Cable Managers

CABLETEK™ Horizontal Cable Manager

DCHD2
shown

Arrowhead fingers funnel
cable into base and hold
it securely

Large pass-through holes
facilitate efficient cable routing

Vertical and horizontal cable manager
system installed on a 2-post rack. Vertical
and horizontal cable managers work
together to make an orderly installation.

Industry Standards

EIA 310-D

Application

This cable manager features heavy-duty endposts, arrowhead fingers and tool-less mounting to easily route Cat 5e, 6 and 6A cable horizontally in standard 19-in. cabinets or on 2- or 4-post open frame racks.

Features

- Snap-in mounting provision holds cable manager in place while mounting screws are installed
- Robust arrowhead fingers are shaped to funnel cables into base and are made of black composite material
- Robust rounded end posts support cable as it enters and leaves cable manager and maintains proper cable bend radius
- Deep cable compartments allow maximum cable density
- Rounded edges throughout protect cable jackets from damage
- Pass-through holes on double-sided models protect cable while facilitating routing between front and back sides

- Single- and double-sided units provide high cable capacity, including 5e, 6 and 6A cables
- 1 RU and 2 RU heights allow greater flexibility in optimizing rack capacity
- Removable hinged cover opens top or bottom, snaps closed for assured cable protection and professional appearance
- Double-sided model has covers on both front and back
- Covers stay open during installation and maintenance procedures
- Horizontal and vertical cable managers designed as a system for streamlined appearance and improved functionality
- Combination head 10-32 and 12-24 screws included for mounting

Specifications

- Made of UL listed black composite material

Finish

Low gloss, matches look of RAL 9005 textured paint

Open-Frame Rack Cable Managers

CABLETEK™ Vertical Cable Manager

Spring loaded central latch operates easily and fastens securely. Pass-through holes facilitate efficient cable routing.

Tie-down loops accept Velcro™ Cable Wraps

Vertical and horizontal cable manager system installed on a 2-post rack. Vertical and horizontal cable managers work together to make an orderly installation.

Industry Standards

EIA 310-D

Application

Available in single- and double-sided models, this vertical cable manager mounts on the sides of or between 2- and 4-post open frame racks. The front side of the manager provides support, management and high capacity for patch cords, while the back supports Cat 5e, 6, 6A and fiber optic cables.

Features

- Easily removable one-piece front cover with access from right or left as needed opens 180° to allow full access to cables
- Self-aligning bolt locations minimize lifting and speed installation
- Self-captivating fasteners; bolt doesn't turn while tightening nut
- Generous finger depth allows for maximum cable density and allows smooth transitions from vertical to horizontal positions
- Unobstructed cable access to rack equipment—no keep-out areas
- Rounded edges on composite material and grommets protect cable jackets from damage
- Robust arrowhead fingers are shaped to funnel cables into base and are made of black composite material
- Cable tiedown points provided on back
- Pass-through holes protect cable while facilitating routing between front and back

- Single central door latch allows quick and easy access to cables
- Double-sided models include five posts and gates that can be positioned as needed to support and contain cables. Additional posts and gates available as accessories.
- Posts snap into prepunched holes in the back of the cable manager
- Gates snap onto posts, open from left or right as needed and swing 280° for cable access. Posts can be used alone as slack spools to control long patch cords.
- Horizontal and vertical cable managers designed as a system for streamlined appearance and improved functionality

Specifications

- Front door and cable channel made of multi-formed lightweight aluminum
- Hinge points and supporting fingers made of high-strength composite material

Finish

Aluminum components are coated with RAL 9005 black low-gloss lightly-textured polyester powder paint. Composite parts have a low-gloss finish that matches look of RAL 9005 textured paint.

Open-Frame Rack Cable Managers

CABLETEK™ Post and Gate Kits

Post and Gate Kits snap together quickly without tools. Each set consists of two posts and one gate. Posts snap into prepunched holes on the backs of all CABLETEK™ Vertical Cable Managers and are easily repositionable without tools. Gates swivel open 280 degrees left or right to allow convenient cable access. When closed, post and gates contain, support and secure large volumes of cables and cable bundles. Molded from black composite material with large radius, these Post and Gates smoothly transition cables from vertical to horizontal positions. Order additional Posts and Gate Kits to add to single- and double-sided cable managers.

Single posts can be used alone as slack spools on the front side of the cable manager.

Waterfall Top

For routing cable across the top of an open-frame rack. Provides horizontal-to-vertical transition bend radius for compliant installation of Category 5, 6, 6A and fiber optic cable. Makes a complete cable management system when used with vertical and horizontal cable managers. Mounts on 2- and 4-post open-frame racks. Material is steel with RAL 9005 black polyester powder paint finish.

Bulletin: DOFRY

Catalog Number	Description	Fits Open Frame Rack
EWFT	Waterfall Top	19 in.

D-Ring Assembly

Mounts horizontally on 19-in. racks. Allows grouping vertical cable runs. D-Rings rotate on bracket for easy cable positioning; snap open for easy access for cable updates, yet latch securely. Back plate made of steel with RAL 9005 black polyester powder paint finish; D-Rings are black plastic. Mounting hardware included.

Open-Frame Rack Cable Managers

Horizontal Cable Manager Bar

Supports cables between vertical and horizontal cable managers. Designed for use with VELCRO® cable ties. Angled tie-off surfaces allow cable to follow natural flow and maintain proper bend radius. Can be installed behind patch panels to support large permanent link cable bundles. Can also be installed on top of patch panels as a zero-RU manager to separate and control patch cables. Made of steel with a black finish. Secures standard cables, including CAT 5e, 6 and 6A cables. Meets EIA 310-D standard. Includes mounting fasteners.

VELCRO is a trademark of VELCRO Industries B.V.
