LEVITON

Metal Splice Trays

APPLICATION

Splice Trays provide complete protection for delicate stripped fibers and splices for all types of fiber cable designs. All trays accommodate a wide variety of splice holders and feature a clear polycarbonate cover for viewing of tray contents. Central and offset mounting holes are protected by a spacer block which prevents fiber damage during installation and removal.

SPECIFICATION

The fiber splice trays shall be offered in 4-inch and 5-inch widths with clear polycarbonate covers for viewing, and tie-down holes for securing incoming fiber. The trays shall accommodate heat shrink, bare fusion, or ribbon-style splicing for both single-mode and multimode fiber and a variety of splice holders. Central and offset mounting holes with spacer blocks for fiber protection shall be included.

FEATURES

- Available in four-inch and five-inch widths
- Clear polycarbonate covers
- Tie-down holes for securing incoming fibers
- 12-fiber and 24-fiber high-density versions
- Choose from heat shrink, bare fusion, or ribbon-style splice trays
- Central and offset mounting holes for installation in enclosures
- Mounting hole spacer block creates a protected path to avoid fiber damage during installation and removal
- 4 x 7 inch trays compatible with applicable SDX enclosures
- Compatible with LightSpace® enclosures

DESIGN CONSIDERATIONS

- Splice holders and splice trays sold separately
- Splice trays are stackable
- Use for single-mode or multimode 900 µm or 250 µm fiber
- Mounting hardware and tie wraps are not included

PHYSICAL SPECIFICATIONS

Dimensions: See page two
Material: Tray is aluminum
                Cover is clear polycarbonate
