The MS2™ Super Mini Module Gel Transparent 4000-G/TR is a 25-pair straight splice module that features an array of U-shaped, phosphor-bronze contacts and stainless steel cut-off blades. This gel-filled module with a transparent cover is designed for aerial, buried and underground applications where there will be extended exposure to a variety of poor weather conditions. It is suggested to use one of the MS2™ Splicing Rigs along with this product.
